

## INTERNET SAFETY POLICY

Following receipt of this education, the student will acknowledge that he/she received the education, understood it, and will follow the provisions of this policy and the district's acceptable-use policy.

The computer network coordinator designated under the district's computer network or acceptable-use policy, shall monitor and evaluate all district computer network activities to ensure compliance with this policy and any accompanying regulation. She or he shall be responsible for ensuring that staff and students receive training on their requirements.

All users of the district's computer network, including access to the Internet and World Wide Web, must understand that use is a privilege, not a right, and that any such use entails responsibility. They must comply with the requirements of this policy and accompanying regulation, in addition to generally accepted rules of network etiquette, and the district's acceptable-use policy. Failure to comply may result in disciplinary action including, but not limited to, the revocation of computer access privileges.

Process effective 6/7/89, Computer Network for Education
